Work Experience

- ***IT and Website Management / Retail Associate   Beautylicious Inc   June 2024 – Present***
  - Oversaw website maintenance, updates, and performance optimization to ensure fast load times, security, and 99%+ uptime.
  - Managed IT infrastructure including user support, hardware/software setup, and troubleshooting, to maintain smooth daily operations.
  - Supported retail operations including POS system use, customer service, and inventory management during peak periods.
- ***Graphic Designer   Self-employed   March 2020 – Present***
  - Designed digital and print materials such as logos, social media posts, and marketing assets that aligned with client goals.
  - Collaborated with clients to develop creative concepts and deliver visually appealing designs using Adobe Creative Suite (Photoshop, Illustrator, etc.).
- ***Photographer   Self-employed   July 2019 – Present***
  - Captured and edited professional photos for clients, including portraits, events, and product shoots, ensuring high-quality results that met client expectations.
  - Managed all aspects of the business, from client communication and scheduling to photo editing, marketing, and delivery of final images.

Projects

- ***Hidden Day***
  - Developed **Hidden Day**, a full-stack web app using **Next.js**, **TailwindCSS**, and **FastAPI**, that automatically plans personalized day or weekend itineraries based on user preferences, budget, and location.
  - Integrated multiple APIs (Yelp, Ticketmaster, Eventbrite, and OpenWeather) with an **interactive Leaflet map** to generate real-time activity recommendations and visualize plans dynamically.
- ***AI Screen Helper (In-Progress)***
  - Built **AI Screen Helper**, a **Tauri-based desktop assistant** that captures on-screen content and uses **AI models** to analyze, annotate, and provide real-time assistance.
  - Implemented features like **image recognition, smart highlighting, and context-aware responses**, integrating local processing for speed and privacy.
- ***Marketplace Sniper***
  - Developed **Marketplace Sniper**, a **Python/Flask web app** that scrapes and tracks listings from **Craigslist** and **Facebook Marketplace**, storing data in a **SQLite database** via SQLAlchemy.
  - Automated **Discord notifications** with embedded images, prices, and links for new deals, enabling real-time alerts and efficient marketplace monitoring.
